Thanks all, I'm aware of IA/SS/AMB abbreviations. I meant the buildings. The spreadsheet forwarded from Jeff to Denise today is what I was looking for.

▼ Jeff Catanzarita---04/02/2012 04:09:29 PM---IA = indoor samples SS= sub-slab samples

Subject: Re: Fw: Cabo Sampling Location Info

IA = indoor samples
SS= sub-slab samples
AMB = ambeint samples

We do not have any SS data yet so ignore that for now

Thank you,

Jeff M. Catanzarita

Becky

we don't have a map (yet) but Jeff sent the attached spreadsheet, which has the sample id and location. the sample #s indicate the type of sample collected.... IA for Indoor air, AMB for ambient and SS for sub-slabs.

can you please provide Jeff with some action #s for the contaminants sampled? he wants to enter those actions #s into Scribe.

Denise,

I would think this would suffice as to the IA cans.

All they need to do is compare their IA action #s with the data. Send me the action numbers an I'll do it

I'll try to put a map together, but it is not going to have data on it until we get final data.

Jeff

Jeff, a key is attached. I will work on the map.

Thanks

Mike
